Thursday 7th May- Year 4 Maths

Our last piece of maths this week as it is VE day tomorrow and I have some nice actvities for you to complete instead of Maths and English. Hope you are all still practsing your timestable too. Who can answer all 25 calcualtions correctly without removing any facts or making the time longer? If you can email me and tell me- I would love to hear from you. Mrs M

Greater than > and less than <

Look at the calculations below. Mentally solve each calculation and then decide whether to use the greater than (>) or less than (<) symbol to make the number sentence correct. An example has been done for you below:

$$5×9 < 8×7$$

7×5 □ 9×2	9×5 □ 3×11
2×6 □ 8×5	3×9 □ 12×2
6×7 □ 12×4	9×6 □ 7×8
8×5 □ 6×8	11×6 □ 7×8
6×7 □ 4×9	2×8 □ 3×7
7×9 □ 3×12	4×12 □ 3×9
10×8 □ 9×9	7×7 □ 8×5
3×6 □ 2×7	0×5 □ 0×6
