School Parking Restrictions Wallsend Jubilee Primary School

Dear Parent / Guardian,

Northumbria Police continue to promote a positive working relationship with schools in the Wallsend area. The safety of children on their route to and from school is a significant priority for all parties concerned; parents, guardians, schools, and the council.

Unfortunately, there have been a number of complaints about parents and guardians who continue to ignore parking restrictions within close proximity to the school, thereby committing offences and more importantly putting the safety of pupils in danger.

It is disappointing that the school, the council and the police spend a great deal of effort and expense to highlight the importance of road safety to children, only for a small proportion of parents and guardians to deliberately breach parking restrictions outside of the school.

This issue has been highlighted on a number of occasions by police patrols and the school, however, the problem still persists as does the danger to your children.

Traffic restrictions around schools are implemented for a very specific reason and parking control officers or police will act positively to enforce those restrictions by fixed penalty notices to offending vehicles.

Thank you

Sgt Kathryn Tailford 8724
Neighbourhood Sergeant
Wallsend Police Station
