

Can I identify things that are living, non-living
and have never been alive?

Task 1: Watch this video all about things that are living, non-living or have never been alive:

<https://www.bbc.co.uk/bitesize/topics/z6882hw/articles/zs73r82>

Task 2: Take a look around you, list anything 'living' and 'never been alive' that you can see. You can complete the table below or draw your own table. Miss Tappenden put some ideas in to help you...

Living	Never been alive
Oreo (Miss Tappenden's bunny) Fly	Vase Kettle

Task 3: Explain why we would put this object (wooden spoon) under 'non-living' rather than 'never been alive' category...
