I can solve multiplication and division problems using the grid method and chunking.

- 1) Simon has 48 DVDs in each rack. He has 4 racks. How many DVDs does he have altogether?
- 2) Josh collects 68 points per level on his game. He completes 8 levels. How many points does he have altogether?
- 3) Miss Cowen has 97 strawberries for her class. Each child is allowed 3 each. Are there any left?
- 4) Mrs Miller has 99 glue sticks to divide between 3 classrooms. How many will each class get?
- 5) Ally runs 90 minutes a day for 6 days. How many minutes did she run in the 6 days?
- 6) 18 children go camping. Each tent sleeps 3 children. How many tents will they need?
