

### Can I add using number lines?

Reminder how to add using number line:

$$42 + 11 = 53$$

**Numbers:**    34                    42                    28                    16                    11                    61

**Option 1:** You can add the numbers above, choosing any 2 numbers to add.  
Complete 3 additions OR...

**Option 2 (Challenge):** You can add the numbers above to match the tasks below...

A: Add two numbers above to equal over 100 (*Remember to look at tens when you choose the numbers*)

B: Add two numbers above to equal under 50 (*Remember to look at tens when you choose the numbers*)

C: Add two numbers above that will need you to regroup (*Exchange -remember to look and see if the ones equal over 10*)
