

Lesson 1

Learning objectives:

- I know a range of factors that improve or harm the natural environment.
- I am aware of a variety of institutions that support the environment.

What does the environment mean?

Talk to someone or write down your ideas

What is the environment?

- the surroundings or conditions in which a person, animal, or plant lives.
- the whole natural world or in a specific geographical area.

How do we impact the environment?

Click the link below to visit the BBC website to learn how humans affect the environment in positive and negative ways:

<https://www.bbc.co.uk/bitesize/topics/zp22pv4/articles/z2md82p>

What could harm the environment?

The Earth has all the things we need to live, but we need to take care of the Earth so it can keep giving us what we need. **Caring for the environment means doing things that will keep the Earth healthy.**

Your task: Make a list of all the things (factors) that might harm the natural environment, what could we do to stop this damage

For example; plastic in the oceans is bad for the environment we could recycle our plastic to stop it ending up in the sea.
