Thinking about all the things you have looked at this
afternoon draw and write to tell others...

How to keep safe online

Use the frame below to create your own poster about internet safety.

The image shows a poster template. On the left side, the word "SMART" is written vertically, with each letter in a separate square box. The letters are: S (pink), M (yellow), A (green), R (purple), and T (blue). A large, empty rectangular box with a blue border occupies the right side of the page, intended for a poster about internet safety. A thin blue line connects the top of the 'S' box to the top of the large box, and another thin blue line connects the bottom of the 'T' box to the bottom of the large box.
