

Thursday 21st May

Good Morning Years 3 and 4

Have a go at the Beach Café worksheet

(There is an easy one and a harder one, with answers too)

Then calculate how much change your customers would get from

- £5 £5 = 500p
- £10 £10 = 1000p
- £20 £20 = 2000p

Challenge: Can you create your own Beach café menu with prices on?
