

Can I find a fraction of an amount?

Use a bar model to help you solve the following problems. We've done one to show you ...

$\frac{1}{2}$ of 12 = 6

Find $\frac{1}{3}$ of 21

Find $\frac{1}{4}$ of 8

Find $\frac{2}{4}$ of 28

13 is $\frac{1}{2}$ of _____

Challenge:

Prove that $\frac{1}{2}$ is equivalent to $\frac{2}{4}$ using bar models... (Choose your own amount)
