

Explanation Texts

Yesterday you read all about The Water Cycle. The water cycle is an explanation text. **What do you know about Explanation texts?**

Look at these images. **What is different and what is similar?**

Look at the title- Explanation is similar to EXPLAIN.

Instructions tell you HOW to do something, eg bake bread and Explanations tell you HOW something works eg a process such as solar energy or how we get water into our homes.

Task 1: Choose a room in your house

Where could explanation texts be useful?

List all the processes that would need an explanation

- 1) How an oven heats food.
- 2) How a fridge keeps food cool.

Challenge: Think about the other rooms in your house or even places you might visit eg beach. List the different explanations.

- 1) How the tides work.
